## 22-Point Program for Special Session Listed by Governor

BOISE (AP) — Gov. Robert E. Smylie listed today an unexpectedly long 22-point program for the special session of Idaho's Legislature, scheduled to meet Monday primarily to consider legislative reapportionment. Major points, in addition to reapportionment, included: Authorization for the purchase of most of eight square blocks adjacent to the Capitol in the heart of Boise for future state construction. Appropriation of funds to prepare Farragut State Park for the 1967 World Boy Scout Jamboree.

Creation of an agency to coordinate federal aid programs which provide money for Idaho. Enactment of memorials intended to assure continuation of Idaho's salmon sports fishery. Smylie asked amendment of state election laws to carry out changes resulting from legislative reapportionment. But he told his news conference he made the official proclamation calling the special session as restrictive as possible to avert any attempt to bring wholesale revision of the election law.

There had been speculation that Republicans might attempt to restore the direct primary. Smylie said he was "not a convention plan for nominations." Smylie said he plans to go Monday to outline his proposals. He repeated an earlier statement that if partisanship is avoided the legislators can complete their job in two weeks. "It depends," he said, "on whether they make like statesmen or partisan wranglers. I am confident they will act like statesmen."

Smylie said he believes no subject on his list is of a partisan nature. Reapportionment is required because of action by the U.S. District Court in throwing out the re-vamping plan approved in last year's special session. "The other subjects, Smylie said, were suggested by him in See 22-POINT, Page 2, Column 4.

## Law Session To Deal With Many Topics

FILER, Idaho (AP) — The special Idaho Legislative session starting Monday is likely to deal with more subjects than some people expect. Gov. Robert E. Smylie told Filer's Kiwanis Club Tuesday night. But Smylie said legislative leaders believe the session's business, principally reapportionment, can be completed in 14 days. The governor did not name the subjects besides reapportionment to be considered but said several would coordinate state government services with some of the federal government's so-called Great Society programs. Appropriation of money to develop Farragut State Park, partly for the 1967 World Boy Scout Jamboree, is the only subject aside from reapportionment that Smylie has revealed will be in the special session call.

## Humphrey Pledges Immediate Action to Carry Out Aims of "Declaration of Honolulu"

HONOLULU (AP)—Vice President Hubert H. Humphrey today pledged "immediate and continuing action" to carry out the aims of the "Declaration of Honolulu" for political, economic and social progress in South Viet Nam. The vice president made this pledge in a statement prepared for his departure for a 10- to 12-day mission to Viet Nam and possibly five other Asian countries. His takeoff was scheduled only a few hours after he landed in Hawaii following a Los Angeles airport conference with President Johnson.

## U.S. Jet Bombers Step up Attacks

SAIGON, South Viet Nam (AP) — U.S. jet fighters stepped up their attacks in North Viet Nam today while the Viet Cong still sidestepped the big Allied ground forces trying to hunt them down. While the ground war tapered off significantly, the U.S. Military Command announced that the number of Americans killed in combat last week rose by more than 50 percent. A spokesman said 89 Americans were killed, 499 wounded and eight missing in action compared with 57 Americans killed, 281 wounded and 11 missing in the previous seven days.

## Show off

NAIROBI, Kenya (AP) — Members of Kenya's Parliament warned Tuesday that the purchase of a \$20,000 Rolls Royce for the mayor of Nairobi was the sort of extravagance that could slow the pace of development. One MP called the purchase of the car "a waste of money." The car was to be used by the mayor, who is a member of the ruling party.

## Costa Rica's New President Has Problem Shaking Classroom Manners

SAN JOSE, Costa Rica (AP) — A mild-mannered professor who admits he spent day after day "wondering what I would do if they asked me to run," has a bigger problem now.

In his first try at politics, Jose Joaquin Trejos won the presidency of Costa Rica. He was elected Sunday in a close race with the ruling National Liberation front candidate, former Foreign Minister Daniel Oduber.

"I finally decided it's not kind of thing any responsible citizen

can turn down," says Trejos, 49-year-old mathematics and economics professor at the National University. He became the candidate, a compromise choice of a powerful three-party coalition.

An aide recalls that he threw himself into the campaign with great determination — and clumsiness.

"He couldn't seem to get rid of his classroom attitude and start talking to them rather than preaching to them. He said to them, 'I am a professor and I am going to teach you how to run a country.'"

Trejos was frequently interrupted by a crowd, utterly speechless, but he would recover and plug on. That takes a lot of courage and determination and he seems to have plenty of both.

## Scout Troop At Hagerman Has Banquet

Awards were presented by Titmus, with Gene Taylor and Carl Grimes receiving their leadership pins.

Mrs. Berry, Mrs. Titmus and Mrs. Sandy were in charge of the dinner.

## Gold Eagle Gets Beauty Treatment

LONDON (AP) — The big golden eagle on the American Embassy is getting its biennial beauty treatment, but the embassy won't say what color it will be when the beautician gets through.

The 35-foot aluminum bird has been hidden behind scaffolding and canvas for about a week. The last time the public saw it the eagle had turned black from anticorrosion paint.

As workmen attempted to restore its original gold color, London birdwatchers feared it would end up sandy brown or rust and plug on. That takes a lot of courage and determination and he seems to have plenty of both.

"The eagle is undergoing routine maintenance," a spokesman said. "This happens every two years."

The eagle stirred up a controversy five years ago when it was put on the new embassy in Grosvenor Square. Many Britons complained that it was too large—larger than any British lion in the vicinity.

## Whipping Boy

Gov. Robert E. Smylie is accustomed to criticism after serving Idaho for 19 years, eight as attorney general and 11 as governor. But he's not used to the criticism and more suggestions in the next few months than he's had in all the time he's been in office. If he announces for re-election and right now no one expects anything else, the governor will be running against a Democratic hopeful until after the Primary Election. He's handy and he's a prime target. But the truth of the matter is that Gov. Smylie actually is not running against any Democrat in the Democratic primary. He's running against the Republican who might aspire to the nomination. It's too bad it doesn't work out that way in practice. If it did, Democrats would run against Democrats and Republicans would lambast Republicans until the Primary.

In practice, it's doubtful if anyone will oppose the governor for the nomination. But if serious opposition does develop from within the ranks of the Republicans, delegates to the party convention or assembly should nip it in the bud. They have their best chance of retaining the governor's office going all the way with Mr. Smylie and shouldn't get any peculiar ideas of sportsmanship such as developed at the Republican convention at Idaho Falls two years ago.

Already, every announcement candidate for the Democratic nomination has tested off against the governor. Although at least three candidates on the Democratic side are in the race seriously, there has been precious little criticism among them. The situation is a good problem for the Democrats. How do you pick the top-notch candidate when the whole field concentrates on campaigns against the governor instead of each other?

## GIANT STRIDE

The Russian spaceship Luna-3 must have removed a little doubt from the minds of those who have regarded space ventures with suspicion and doubt. The venture also must have been good news to those space pioneers who both in America and in Europe may get the assignment to rocket to the moon sometime in the next few years. Previous moon probes had established it was possible to hit the moon with an object and return it to earth. Now everyone knows it's possible to land an object on the moon without damage. It's a giant stride in the continuing programs that will lead inevitably to the day when an earthman sets foot on the moon for the first time.

With Luna-3 on the moon and transmitting photographs, some of the steps necessary to putting a man on the moon are technologically possible. Everyone knows that the moon is there and that Luna-3 proves it's possible to land on the moon. That leaves only—and it's an enormous "only"—the matter of leaving the moon and returning to earth.

Suddenly space travel doesn't seem quite so impossible. Even those who have had their doubts about the project might begin to see some of the possibilities. It doesn't mean that the Great Debate in the U. S. over the space program is going to end in a tight race that scientists prove the value of space travel, there will be many who will oppose it as an unjustified cost.

It's hard to convince some Americans there can be any merit to space travel so long as so many of their problems remain unsolved. Many shake their heads at the enormous expense while poverty still remains, while disease remains unconquered, while world peace escapes to a future that is still a long way off. It's modern-day pioneering and only time will prove if it's worth while.

## WHERE WILL IT LEAD?

Prof. David M. Heer of the Harvard School of Public Health reports the nation's birth rate has dropped 20 per cent in the last 10 years. He attributes much of the decline to increasing popularity of birth control and says that the birth rate has been expected, Prof. Heer explains.

"The Pill" as it's popularly known, has been heralded as one of the world's most weapons against over-population and resulting famine. But what happens when "The Pill" has been in use for over 10 years or 50 years? Suddenly the possibility materializes for the necessity of legislative control at some future date. Perhaps the world will sharply declining populations. It's obvious that any such trends would develop—in the so-called highly civilized nations. The emerging or backward nations probably will show a wide range of "The Pill." It's anyone's guess what "The Pill" will lead mankind in time, say the next 100 years or so.

# WHIRLWIG

By ANDREW TULLY

WASHINGTON — If I lived in New York City, a penalty not yet exacted of this flabby city, I would ride one of its filthy subway trains to City Hall, register my occupation as a "Whirlwig" and go back home to await the riches that accrue to this incurably mediantic tier of the population. As a whirlwig, I would be saluted as a public benefactor.

Considering the plight of America's cities—occupied by more than half the Republic's population—it seems incredible that the taxpayers are still lavishing their largesse on the farmer, who on the average is richer and lives more comfortably than any citizen outside the Rockefeller-kennedy axis. The 1955 budget of the Agriculture Department runs to \$7.5 billion, most of it spent on fattening the farmer's pocketbook, while our debt-ridden cities vainly seek few crumbs from a Congress chloroformed by the mystique of the farm vote.

**VOTES COUNT**—I hold no particular brief for the city dweller, who is inclined to churlishness and a tendency toward his kind that he exists today in greater numbers than the farmer and his lot is acknowledged to be a miserable one. Seventy per cent of the people live in cities of over 2,500 and one-third live in cities of a million or more people. The farmer considers his lot the image of the same "Whirlwig" who, for some reason, the windy demagogues in Congress have always presented the farmer as a miser and a miserly miser.

For some reason, the windy demagogues in Congress have always presented the farmer as a miser and a miserly miser. An altruist who works from dawn to dusk in order that the populace may be fed. This phony tradition is of a piece with the information that the money given by Herbert Hoover to feed the Belgians in World War I was his own. The farmer is sacrosanct, like baseball and two-thirds.

**FOOD PRICES SOAR**—As a result, the farmer has always been first at the public trough, with his hands over the same trough. The same trough allotted to archbishops, mothers and homerun hitters. No matter what other issues rise or legislation dangles by hairy and unwashed beanstalks—the farmer demands to know what it is for him, and Congress usually hands over the cupidity of some farmers in swindling the government of millions of dollars.

Meanwhile, the present farm policy—which Lyndon Johnson inherited from predecessors going back to Roosevelt—has not only paid farmers for their crops but has also paid them for the cost of living. It is an all-time high, caused largely by a 3.5 per cent increase in food prices in 1955. And retail meat prices, with many cuts up 20 per cent over a year ago, are the highest in the country's history.

**BACON PRICES SKYROCKET**—Hog farmers had their best profit year since 1931. Supermarkets are selling bacon for \$1.15 a pound, and the national average price for a pound of bacon is 67 cents. Hog producers' cash receipts were 10 per cent higher than a year ago.

This coddling of the farmer may have been both necessary and practical 25 years ago when the average husbandman had a tough time getting up enough dough to buy a pair of shoes. But today most of the taxpayers' handout goes to the million most successful farmers, who make thousands of dollars a year in vacation in Europe or the Caribbean when not tooling about their principalities in Lincoln Continental. Presumably these men of wealth do not consider such subsidies as a tribute to their special talents, but the citizen of Chicago's South Side should not be required to finance the leisure of his icons out of reverence for their beneficence.

## Views of Others

**THE FIREMEN ANSWERED**—A quietus has been put on the calamity howling by the Brotherhood of Locomotive Firemen and Engineers over removal of firemen from the National Joint Board. The National Joint Board, created as watchdog over effects of the 1953 federal arbitration award, has ruled that the firemen have no veto effects to the employees or the service. It found that 52 firemen deserted by the union in 1954 and 1955. The union was ordered to pay the year after the award went into operation than they had the preceding year. Not a single accident or casualty could be attributed to the fact that there was no fireman in the cab.

The Joint Board found that the firemen's union often disregarded the safety of the public and was guilty of picking 10 per cent of the firemen's jobs that could freeze under the award, selecting instead those that carry the most pay and the most danger. This was the union's loudly and repeatedly voiced concern over safety took very much like hypocrisy.

It is one of the saddest of all the sad facts about collective bargaining on the railroads in the past few years or so that the firemen's union has emerged as the least responsible and effective of the operating unions. The underlying reason has been its refusal to face reality. The present year had hardly started when the union was making demands on the railroads for making new demands on the railroads as a preliminary to demanding rehiring of a union member who had been fired for the arbitration award. For its own sake as well as everyone else's who hope it will be willing to accept a reality that it is not.

## HOW CAN WE SLIGHT GUY?

In this undeclared but very real war, Rep. Olin L. Teague, D-Tex., is pushing strongly for enactment of a Bill of Rights for the farmer. Teague has introduced a bill, H.R. 10, which extends to veterans of the Korean War, thereby, many an existing farm man was added by federal funds in giving an education, buying a home or a farm and so on.

A Viet GI Bill of Rights measure already has passed the Senate. Teague says the White House opposes it solely because it would cost too much. No doubt it would be. But taxpayers have financed this help for World War II and Korean War veterans. Why not for the Korean War? Why not for the other two, whatever you call it? so how can we slight the veterans of this one?—New York Daily News.

## The Doctor Says

By WAYNE G. BRANDSTADT, M. D.

Labor-saving devices have moved from the kitchen to the doctor's office. For example, instead of shoveling snow, it is now possible to shovel snow with a power-operated snow thrower.

The power lawn mower, however, these machines have a malevolent side. Many fingers that would have given good service for years have been permanently removed by snow throwers. Some persons operating these machines have slipped and sent a foot into the whirling blades.

Snow accidents rarely happen when the snow is dry and powdery, but wet, sticky snow can clog the blades and the chute. When this happens any attempt to clear the parts without stopping the motor is likely to end in disaster. The National Safety Council offers the following rules for operating your snow thrower:

Follow the instructions that come with the machine. Be sure to use it in the snow. Do not throw the blades out of gear. Keep children and pets away from the machine when it is in operation. Never leave it unattended while it is running. Never fill the fuel tank.

Belknap said he thought the White House was "alarmed" by the vast scope of the report in charting a 10-year economic plan, and by the unusual recommendations for the labor, big business, civil rights and university representatives on the blue-ribbon panel.

By HAL BOYLE

**NEW YORK (AP)**—Jumping to conclusions: America, which leads the world in so many fields, has produced few native-born pickpockets. As a people, we lack the patience and grace to rise to the top in this profession. It takes more skill to pick a pocket than to pick a pocket.

Half the woes of our civilization might be avoided if everybody would just get one-fourth of the way out of the city. Three miles outdoors daily, and stay at home on Saturday night.

South wouldn't double any five spade bid when he appeared to have 12 tricks in his hand. Of course, South went to six hearts. West was in a bind. Jim: "He sure did. West passed. He hoped to beat six hearts and East passed also. He knew he was going to beat six hearts but wasn't at all sure about seven diamonds or seven clubs."

The Twin Falls YM-YWCA membership drive kickoff meeting will be held at 8 p.m. Thursday at the "Y" building, reports Glenn Romig, general chairman of the drive.

Featured speaker will be Tom Hazzard, director of buildings and services for Boise College and vice president of the Boise YMCA board of directors. Hazzard, who has been active with the YMCA in Boise for more than eight years, has served on the National Youth Advisory Committee, has been chairman of the Boise "Y" Youth Committee and is currently member of the Pacific Northwest Area Council of YMCA.

Romig said the YMCA membership goal is 600 and the YWCA goal is 750. "More than 250 workers will participate in the drive, Romig said. Division leaders for the YMCA are Mrs. Ernie Moore, Mrs. John Detweiler and Mrs. Quintin Harrell.

Leaders for the YMCA drive are Ernest Marlow, Fred Plankey and Bernie Schmitt. Romig said the drive will continue through February with a victory dinner March 2.

"Many Y activities have been developed in the past year for all age groups," Romig said. "The Y needs the membership support of more residents of our community in order to continue its present growth."

All workers, captains and division leaders are asked to attend the kickoff dinner.

**PLANS ANNOUNCED**  
POCAHONTAS (AP) — Grace Lutheran Church has announced tentative plans to build a four-classroom day school and kindergarten here this summer.

Rev. Erhart Bauer, pastor, said the kindergarten through sixth grade students now are attending classes in the church building.

He said the congregation has applied for a construction loan from the church extension program of the Lutheran Church, Missouri synod.

**CALL FOR BIDS**  
BOISE (AP) — The Idaho Highway Department called Tuesday for bids on one leg of a one-way couplet system in Caldwell.

The bids, to be opened March 1, are for construction of the roadway, drainage structures, storm sewer system and plant mix bituminous surfacing on 2 miles of Blaine St.

When the project is complete Blaine St. will carry westbound traffic on U.S. 30 and eastbound traffic will use Cleveland Blvd.

**DEADLINE GIVEN**  
BOISE (AP) — Idaho organizations have until March 1 to nominate their candidates for 1964 Idaho Mother, according to the 1965 winner, Mrs. John Riley of Meridian, Idaho.

Mrs. Riley is president of the Idaho section of the American Mothers Committee, Inc., of Little Rock, Ark.

She said a candidate must be able to demonstrate her success as a mother by character and achievements of individual children 15 years or older.

The state winner will compete for the national title.

**SWISHER CONSIDERS**  
LEWISTON, Ida. (AP) — The Lewiston Morning Tribune said this morning in its lead editorial that State Sen. Perry Swisher, R-Hannock, is considering running against Second District Congressman George V. Hansen in the Republican primary election.

Both Swisher and Hansen are from Pocatello.

Swisher had announced earlier that he would not seek re-election to the state Senate, indicating he planned to retire from elective office.

**LOW BIDDER TOLD**  
BOISE (AP) — Morrison-Knudsen Co., Inc., was the apparent low bidder for construction of a 4.5-mile stretch of state 52 near Emmett to eliminate a sharp S-curve.

The state Highway Department said the first bid was \$282 for the job, which includes construction of the roadway and an 87-foot concrete bridge and surface.

The department said Bryan C. Rambo Co., Inc., was apparent low bidder, at \$222, to furnish surfacing and cover cost material along state 52 near Emmett.

**CHIEF RESIGNS**  
GRANGEVILLE, Ida. (AP) — The Hon. Grant G. Galt, chief of police, resigned Tuesday after a number of citizens complained to the City Council Monday that he was not doing his job.

The councilmen went into an executive session after their regular meeting to discuss the matter, and Mayor Douglas Adkins said Monday the council would decide whether to accept or would take it at its March 7 meeting.

**GMC Makes Big Move in Auto Safety**  
DETROIT (AP) — General Motors made a major move in the auto safety field today when it announced that two safety features, a collapsible steering column and dual brakes, would be standard equipment on all its 1967 model passenger cars.

GM gave no indication whether the cost of the items would be reflected in increased prices for its cars. Traditionally, auto firms do not disclose new car prices until model announcement time.

GM President James M. Roche said, "In the event of a severe front-end collision, the steering column on 1967 GM cars will collapse, or shorten as it is controlled by the force of impact is applied to it at either end."

Roche explained that special mountings on the dashboards and beneath the instrument panel would permit the steering column to absorb impact without force from an accident.

"This would cushion the impact of the driver against the steering wheel and also would prevent the column from being forced towards the driver," he said.

Roche said the new braking system will have dual cylinders — one controlling front brakes and the other the rear brakes. The front and rear brakes will be controlled separately and if one of the other of the brake cylinders is not functioning, a red light will flash on the instrument panel.

GM's announcement was the first move by a U.S. auto firm in the auto safety field since the entire question of auto safety came back into the public spotlight in recent weeks.

**REQUEST APPROVED**  
BOISE (AP) — Idaho's Permanent Building Fund Advisory Council approved a Lewis-Clark Normal School request for an architect Tuesday.

Named was Patnam, Dinkes and Mosman of Lewiston to handle preliminary planning for the next biennium.

**RENOVATION OK'D**  
BOISE (AP) — Plans to renovate six rooms on the fourth floor of the Idaho Statehouse at a cost of \$22,000 were approved by the permanent building fund advisory council Tuesday.

Architects said proposed renovation of the third floor was not considered because of the uncertainty of reapportionment, which a special legislative session will consider starting next Monday.

James McClary, council chairman, asked Rep. Larry Mills, R-Ada, to keep the council informed so that remodeling of the third floor could be expedited.

**SELLS DIVISION**  
BOISE (AP) — Albertson's Inc. has sold its poultry division to Avi-Simplot, Inc., the two firms announced Tuesday.

Avi-Simplot is a new corporation owned by Simplot Industries, Inc., of Idaho and Arkansas. The Valley Industries, Inc., of Little Rock, Ark.

Arkansas Valley Industries is one of the nation's largest poultry processors and dealers.

**ENROLLMENT UP**  
POCAHONTAS (AP) — Idaho State University spring enrollment already exceeds total enrollment last spring — and officials expect about 300 late registrants — during the next week.

The university says it enrolled 3,850 students during regular registration last week. The total, including late sign-up, for last spring was 3,830. But officials doubt that late registrants this term will raise the total to the all-time high of 4,390 last September.

**HOMICIDE VICTIM**  
SANDPOINT, Idaho (AP) — A Bonanza County Coroner's jury Tuesday night found that Floyd Jackson Watts, 61, was the victim of a homicide "by a person or persons unknown."

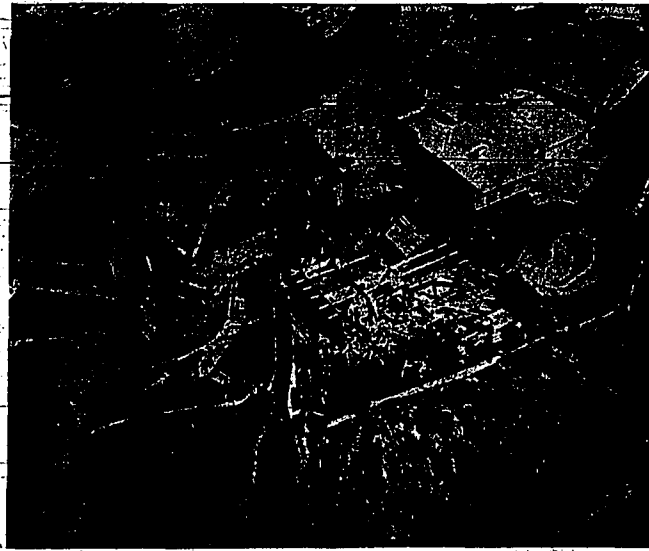

No indictments were returned by the six-member coroner's jury after 17 minutes of deliberation following 9 1/2 hours of testimony. But County Prosec. Atty. Everett Hofmeister said Sheriff Robert Bultman would continue an investigation of Watts' death.

It had been established earlier that Watts died last Dec. 13 from "an unknown toxic substance" after eating at a Bonanza County mine.

**ASKED FOR HELP**  
BOISE (AP) — The University of Idaho asked Tuesday whether its personnel could help other state institutions on expanding and modernizing their facilities to meet growing demands.

James McClary, council chairman, cited the problem at Idaho State University in Pocatello and asked Dr. Ernest Hartung, University of Idaho president, to consider his institution's capability to help smaller schools.

Hartung said the suggestion was desirable and added: "We are certainly open to suggestions."

## Audience Enthusiastic at Civic Symphony Concert

The final concert of this season was presented Tuesday night by the Twin Falls Civic Symphony Orchestra.

Del Slaughter, conductor, selected a most interesting and varied program that effectively displayed the orchestra's outstanding ability.

Featured as guest artist was Donald Hamilton, viola soloist, who beautifully played the "Concerto for Viola and Orchestra" by George Frederic Handel.

Young Hamilton has been a member of the Civic Symphony for the past three years, and is now a senior at Twin Falls High School.

He is the first young artist soloist to play a major work with the symphony, and his performance was as outstanding as any of the guest artists ever to perform with the orchestra.

The viola is not heard often as a solo instrument, but played by such a fine young musician as David Hamilton, the viola produces tones that are darker, more weighty and more dramatically somber than the violin.

The solo instrument and the orchestra were excellently balanced — perhaps due to the fact that the soloist was a member of the orchestra and as such was attuned to its blend. The Handel "Concerto" was a "finishing" professional performance.

As an encore, David selected Ralph Vaughan Williams' arrangement of the old English folk tune, "Greensleeves." His mother, Mrs. Lloyd A. Hamilton, accompanied him for this number.

Many other members of the symphony were featured throughout the evening's program.

## City Budget Is Approved At Shoshone

SHOSHONE — City Councilmen approved the proposed budget when they met Monday at the City Hall.

The amount for 1966 is \$34,480.30. The proposed expenditures show an increase of almost \$11,000 over the budget of \$23,211.18 for 1965.

Slight salary increases for city employees account for about \$1,200 of the increase.

City overseer Bert Terry's salary was raised from \$5,220 a year to \$5,400.

Police Chief Bill Anderson received a raise of \$120 to make a wage of \$4,230 a year.

Mike Sabala, of the sanitation department, was given \$3,900, a \$200 raise and assistant overseer L. M. Hattmaker and Clayton Clifford were raised from \$3,900 to \$4,200 a year.

Anticipated revenues include \$27,455 from taxes raised from the 38 mill levy; \$4,425 from water collections, liquor apportionment, fines and other sources.

These funds added to the Jan. balance of \$22,500 show anticipated revenue for the year of \$34,480.30 which is the amount budgeted for the year.

The total mill levy for the city is the same as last year at 39 mills.

The fire department fund will have 15 mills, street lighting fund 6 1/2 mills; general fund 25 mills, library fund 4 mills and recreation fund 2 mills.

# American Business Is Shaken by Youth Quake

By SALLY RYAN  
AP Business News Writer

A youth "quake" is shaking American business with grannies, dressers, folk-rock records, transistor radios and small - alike steadies.

With a collective \$15 billion a year to spend, the nation's million teen-agers have become the long-haired darlings of businessmen looking for big markets now and more later when the young people begin setting up homes of their own.

From Miami, Fla., to Bellingham, Wash., from Bangor, Maine, to San Diego, Calif., teen-agers dress alike - and dance alike.

They also buy alike - with a difference.

Their money doesn't go for jeans and tapes, but for cosmetics, records, cars, contact lenses, guitars, skindiving equipment and a thousand other things.

"Clothes - that's where all my money goes," says Audrey Phillips, 17, of Harlingen, Texas. "I spend money for food primarily," said Alex Kilros, 16, of Atlanta, a strapping 6-footer. "I also spend it on shooting, pool, going to the movies."

Audrey and Alex are two of the scores of teen-agers who were asked in an Associated

Press nationwide survey what they do with their money.

Their answers are vital to the growing number of firms trying to gear production lines and sales efforts to the demands of the youth market.

As Bruce A. Gimbel, New York City department store president, put it: "We no longer keep up with the Joneses, we keep up with the young."

One Fifth Avenue department store - Lord & Taylor - reports its teen-age business had grown 200 per cent in the last 10 years, and a store official adds he expects it to grow another 25 per cent a year for the foreseeable future.

A swank Fifth Avenue store for women - Bergdorf-Goodman - opened a haven for teen-agers this month, offering them half-price furs. Auto makers appeal to them with fast-back cars. There are bar mitzvah pilgrimages to Israel, summer-skiing tours of Europe and camps for overweight girls or those worried about their social IQ's. "College will be a ball this fall."

The reasons are obvious.

Teen-aged girls spend \$325,000,000 a year on clothes and \$375 million more on shoes. They plucked the granny dress off the French Riviera and spread it coast to coast last

summer, shifting fashions through the garment industry. Now they are going for granny boots - better yet, the teen-agers are going for grannies' purses and granny specialties.

The girls spend \$470 million a year on cosmetics, and sales of men's toiletries are soaring, spurred by young buyers.

One reason: instead of just exchanging pins or rings, young couples now wear the same costume to become small - alike steadies.

Teen-agers spend nearly \$300 million a year on records - counting for 50 per cent of the single-record sales. They switched from Elvis Presley to the Beatles and Sonny and Cher,

and the record companies followed suit.

Teen-agers, as nearly every father can testify, are a boon to the automobile business. Of the girls: 2,241,000 drive and a half million own their own cars. The figures are even higher for boys.

A Denver automobile dealer says he is hiring several salesmen barely out of high school because "they speak the same jargon teen-agers do."

Teen-agers are likely to have a big influence on their parents' choice of cars and other items from bacon to television sets.

"I'd been working on daddy for two years for a color TV,"

said Kathy Hodge, 16, Wichita, Kan. "We got it for Christmas."

Some teen-agers have their own charge accounts.

Bobbie West, 17, Tallahassee, Fla., has three accounts in her own name, but she is an exception.

Parents objected when a firm in Austin, Tex., mailed credit cards to high schoolers.

The Denver Retail Merchants Association said several stores' efforts to encourage individual charge accounts for high school and college students met with failure: the students preferred to use their parents' accounts.

Nearly half of the girls who will be married this year will be teen-agers. One million girls like President Johnson's daughter Luci, are engaged.

## Maj. Gen. Lansdale Acts as Catalyst in Land of War

SAIGON, South Viet Nam (AP)—What happened to Maj. Gen. Lansdale is frequently asked in Saigon these days. The man himself, retired Air Force Maj. Gen. Edward G. Lansdale, a near-legendary American operative in South-east Asia, has the least to say about it.

Lansdale is in Viet Nam indefinitely at the request of U.S. Ambassador Henry C. Cabell Lodge.

Since he arrived five months ago, the 57-year-old "senior liaison officer" and his 11 hand-picked aides have deliberately avoided contact with newsmen.

...moved-back-to-Washington-and eventual retirement" from the counter insurgency program in favor of conventional tactics. They are trying to redress the balance.

Lansdale has no announced program. He is here as a catalyst in a land that is weary of politics and war, one of his aides said, adding:

"You could call his mission an attempt to inspire the Vietnamese. He wants to see our Vietnamese as enthusiastic in their efforts as the Viet Cong."

Lansdale had tussles with Washington officials in the days when he was chief American advisor to Diem. He probably had more influence with Diem than any other American when he worked in Saigon in 1955-56.

Lansdale was acquiescing in the nation's medical dispute. There was no immediate indication the matter would be put to a confidence vote then.

## Honolulu Conference Termed "Puzzling"

By FRANK CORMIER  
WASHINGTON (AP)—President Johnson's meeting in Honolulu with leaders of South Viet Nam was one of the more puzzling international conferences of recent years.

Despite a torrent of public and private pronouncements by its participants, the whole meeting retained an element of mystery.

The mid-Pacific parley was born, in fact, under puzzling circumstances. Johnson announced plans for it last Friday and left for Hawaii Saturday.

All evidence at the conference site bore the earmarks of hasty preparation, at least so far as physical arrangements were concerned.

Only hours before the President's arrival, walls were torn open in his Waikiki Hotel suite—so air conditioning could be installed.

Johnson flew to Hawaii as the Senate Foreign Relations Committee, dominated by critics of his Southeast Asia policy, was holding nationally televised hearings on the Viet Nam situation.

Some of the possible witnesses on the administration side went with him.

The White House insisted there was no connection between the conference and the hearings. Before leaving Washington, Johnson said the focus of the conference would be on planned efforts of the Saigon government to promote social and political reforms, with American aid. All top American officials at the meetings said this was the focal point.

Yet, the conference ended with public attention fixed on other matters: possible intensification of the war and potential roadblocks to any moves toward a peaceful settlement.

In this particular, Johnson's plans may have gone awry.

When the Saigon officials arrived in Hawaii Sunday, the President welcomed them with remarks aimed at home front critics. He said Americans must stand and fight in South Viet Nam or face inevitable bloodshed elsewhere at the hands of Communist forces.

South Viet Nam's chief of state, Nguyen Van Thieu, learned about Johnson's planned statement while en route to Honolulu. He scrapped his own remarks and prepared a new arrival speech in which he applauded—almost as if it were totally unexpected—Johnson's pledge of steadfastness.

At the outset, therefore, the emphasis shifted to some extent from "the works of peace"—a phrase Johnson used in discussing Saigon's reform plans—to military firmness.

The next day, briefing officers said the Saigon group, while talking enthusiastically about reforms, also told Johnson anti-Communist forces in South Viet Nam should be strengthened because, as they put it, that's the only language the Communists understand. And they said they would never compromise with communism, although compromise presumably would go hand in hand with any meaningful peace negotiations.

## Schools Eye Educational TV Possibilities

Educational television for area public schools appeared a step nearer Tuesday with the announcement that 12 Magic Valley school administrators will make a three-day tour of educational television installations at Lowry Air Force Base, Denver.

The administrator said "pilot" programs from Utah educational stations for use in Twin Falls is "a definite possibility."

He noted Cable Vision, Inc., offered to make arrangements to provide educational programming, but action "bogged down because we didn't know where to go from there."

Ragland noted much needs to be done with regards to investigating programs and their use as part of the school curriculum. He expressed optimism "knowledgeable in order to be ready to take advantage of educational TV if we can get good programs."

According to Ragland, the Air Force will provide transportation for the tour. Arrangements were made by Maj. E. J. Butts, Twin Falls.

Attending will be Elmer J. Sommer, Twin Falls school district trustee chairman; Henry Coover, Twin Falls trustee; J. R. Anderson, Twin Falls business co-ordinator; Ragland; Richard A. Baum, vice principal and head of the Twin Falls High School and Herbert J. Smith, high school counselor.

Others are Moyal Kump, aerospace science teacher at the local high school; Eugene Grif, Filer school district trustee; Rex Engking, Buhl district superintendent; William A. Lipcomb, Jerome district superintendent; Robert Sherman, Kimberly district superintendent; and Ezra H. Moore, Cassia County district superintendent.

## Three Key Problems Face Indian National Congress

NEW DELHI, India (AP)—Food shortages and tension with neighboring Pakistan and Communist China will be key problems facing delegates to the Indian national congress, the annual meeting of the ruling Congress party in Jaipur this week.

Resolutions to be placed before the general session Saturday will be decided by a working committee, the powerful policy-making group, which goes into session Wednesday.

The working committee includes congress President K. L. Bahadur Shastri and Prime Minister Indira Gandhi and a number of members of her cabinet.

The party will concentrate on the country's critical food shortage with a view to formulating a policy which may help India fight her way to self-sufficiency.

Congress leaders also will be looking for explanations for the country's chronic food shortages which will satisfy the opposition in the forthcoming session of Parliament, and the nation's voters in elections early next year.

Fireworks may be expected on the issue of the Eastern decision to issue a hard landing and State trading in grain must be stopped.

"Karnar" in a party publication specially issued for the occasion, said the government buy food grain from the East was a mistake.

He also called for statutory rationing in all states for the "alternative to rationing in the country's critical food shortage."

## Crash Hearings Are Moved Back

WASHINGTON (AP)—Public hearings on the Nov. 11, 1965 plane crash at the Salt Lake City Airport, which killed 41 persons, have been moved back by the Civil Aeronautics Board from Feb. 14 to Feb. 21.

The CAB said the hearings, expected to last three days, will be held at Hotel Utah in Salt Lake City.

The 727 jetliner with 91 persons aboard burst into flames after a hard landing and autopilot revealed those who died were victims of the flames.

**Whole Wheat Bread**  
4 cups liquid (milk or water)  
2 yeast cakes  
1/2 cup shortening or oil  
1/2 cup molasses  
3 eggs  
1 tablespoon salt  
8 cups ground whole wheat flour

Softens yeast in water for five minutes. Add liquid, oil, molasses, eggs and some of the flour to make sponge, then beat with electric mixer for several minutes to soften gluten so bread will not be heavy. Add salt and flour to make a soft dough. When using an electric mixer you do not have to knead bread as long.

Let rise twice and shape into loaves and bake within an hour. Do not let whole wheat bread get too tight. Bake in preheated oven, 350 degrees, for 20 minutes, then turn oven off for 20 minutes.

(Note: You can let bread rise once and put in refrigerator overnight. In the morning let it rise again and shape into loaves and bake. It will take longer to rise after leaving in the refrigerator overnight.)

# "Hello Dolly" Stars Enthralled by Viet Nam Tour

By HUGH A. MULLIGAN  
Associated Press Writer

Backstage between shows at Las Vegas's Riviera Hotel, listening to the cranking slot machines and the whirling roulette wheels, dancer-singer Susan More dressed out of a dress and an aircraft hanger in South Viet Nam with sandbag seas and a stage made of Air Force ammunition trailers and a cheering audience of thousands and thousands of soldiers and airmen.

"I'd go back in a minute," said the Houston, Tex., beauty, "so would all the rest. It was the greatest experience of our lives."

Then for no reason at all, or maybe for every reason in the world, she burst into tears.

Six thousand miles a way, across a continent, and an ocean actress Marilyn Lovell sat in her dressing room in London's Drury Lane Theater staring fondly at a plaque given her by Gen. William C. Westmoreland for outstanding contributions to the morale of the American fighting men in Viet Nam.

"This means more to me," she said, "than any line you could ever write."

A few dressing rooms up the

hall, star Mary Martin had a similar plaque in a place of honor on her dressing table, framed by huge bouquets of roses and a congratulatory telegram from the President of the United States.

"I'm proud to have been there," said the star. "Yet nothing in life can make you feel more humble. What we gave them was nothing to what they gave back to us."

More than three months after coming back from Viet Nam, the stars-singers and dancers of "Hello, Dolly!", the first Broadway musical to play in a war zone, were still enthralled by the experience.

"It touched our lives in so many ways," said dancer Susan Freeman, a fetching blonde across a continent, and an ocean actress Marilyn Lovell sat in her dressing room in London's Drury Lane Theater staring fondly at a plaque given her by Gen. William C. Westmoreland for outstanding contributions to the morale of the American fighting men in Viet Nam.

## Kupferman Goes Out to Thank Voters

NEW YORK (AP) — In the manner of the man he will succeed in Congress, liberal Republican Theodore R. Kupferman goes out to thank the voters for his victory in a special congressional election.

Kupferman won a narrow victory Tuesday over Democrat Orin Lehman in a special election to fill the seat left vacant by the election of Republican John V. Lindsay as mayor.

Kupferman, 45, a city councilman and attorney, who campaigned on the issue of the city's need for another Lindsay, said he would thank voters in a morning appearance in Manhattan's 11th Congressional District.

After his victory in November, Mayor Lindsay went out on the streets to greet the people and thank them for his election.

Kupferman also promised that like Lindsay, he would not follow the Republican line in Congress. He said he would offer complete independence and constructive opposition.

The new congressman credited his election to the turnout of independent voters and to the fact that he was able to get out to the voters at bus stops and subway stations.

Kupferman and his wife, Mary, spent about 15 minutes at the victory celebration — Tuesday night.

He told cheering campaign workers that Kupferman "won this fight entirely on his own, through hard work and speaking the truth to his thoughtful constituents."

Lehman said that "the basis of unofficial figures, Mr. Kupferman has won."

Complete but unofficial results from the election district showed Kupferman with 44,225 votes; Lehman, 42,230; and Jeffrey St. John, 8,210.

John, St. John, ran on the Conservative party ticket.

The district runs from Greenwich Village to the East Side. It includes the radio and television network, the advertising agency, publishing companies and the heart of the midtown business district.

Lehman, 46, grandnephew of the late Sen. and Gov. Herbert H. Lehman, had the backing of Vice President Hubert H. Humphrey and Sen. Robert F. Kennedy, D-N.Y.

# Some people come to Soft Whiskey the hard way.

Some people will go to any length to find the whiskey they want. And their search sometimes takes them to many a strange brew. Of course, others are luckier. They try Soft Whiskey first. And once they do, they never have to try anything else. You don't settle for Soft Whiskey. You drink it only because you like it.

That's because Soft Whiskey does anything any other whiskey can do, only it does it softer. (It's 86 proof.) So it goes down smoother and stays

that way all the way down.

We came to Soft Whiskey the hard way (after thousands of experiments). And we make it the hard way, by doing some distilling in small batches instead of large ones. Anything else we could tell you is top secret. Once you find we're the only Soft Whiskey, you'll know why. Even if you did come to it the hard way.

The burglar or burglars kicked in the back door to the club, entered the building, according to the crime reports, and proceeded to take an original oil painting valued at \$150; four additional paintings valued at \$140; a throw rug valued at \$25, and a cocktail chair valued at \$50.

According to Barnett the Club has been broken into previously and also has been vandalized. Barnett said he felt that this could be avoided if the owners, Sombro Lodge, Inc., would permit someone to live in the apartment in the upper part of the building.

# Would-Be Bank Robber Told to "Drop Dead" by Grandchild of T.F. Couple

Quick action by Mrs. L. Todtman, Baldwin City, Calif., granddaughter of Mr. and Mrs. W. Adamson, 137 Fourth Ave. N., apparently saved a California bank from being robbed, according to a letter to the Adamson family from Mrs. Todtman. In the letter Mrs. Todtman said, "We had a bit of excitement at the bank Thursday. I'm now head vault teller and Thursday a man came in, handed me a note that said, 'I have a gun, do just as I say!' For some unknown reason, I just tossed the note on the counter and told him to 'drop dead'."

Mrs. Todtman is employed at the Bank of America in Los Angeles, Adamson said Monday afternoon. Mrs. Todtman continued, "The man went straight down the street to another bank and robbed them. He got only \$500 from them, but he pulled the gun he had up to the counter level and stuck it right at the girl. I guess I moved too fast for him and he didn't have time to pull the gun up. Anyway, they caught him Thursday night. Friday morning I went to the police station to identify him. Adamson said Mrs. Todtman made headlines there and apparently is famous at the bank."

**2 FREE GIFTS BALL POINT  
PENS**

**Souvenirs of Historic Valley Forge**

YES, these beautiful pens are real souvenirs from historic Valley Forge—testing ground of the American Revolution and home of the GOLD STAR PLAN. These pens are FREE to adults over 21, without cost or obligation. Use the blue one for regular correspondence, the gold one for gift cards, special notes, etc. We offer you these attractive, useful gifts for letting us send you, with no obligation, complete details about the low-cost GOLD STAR Extra Income Plan for folks who don't drink. Your gifts will be mailed just as soon as we receive your name and address on the coupon below.

(NOTE: Offer limited to one member of each family, and to those who have never before received Free Gifts from Gold Star.)

One writes in  
GOLD ink—the  
other in BLUE!

**ONLY GOOD FOR 3 DAYS**

**THIS 2-GIFT FREE OFFER  
TO TIMES-NEWS READERS**

**DO YOU  
NOT DRINK**

**Both Free Gifts Mailed with Facts About How You Can Get**

**\$100.00-A-WEEK-EXTRA INCOME  
WHEN YOU GO TO THE HOSPITAL**

**★ Only for non-drinkers—at special, reduced, non-drinker rates.**

**★ Pays you \$14.28 for each day you are confined in the hospital—even for life, if necessary!**

**★ Checks are sent directly to you; money may be used any way you see fit.**

**★ No age limit—lifetime benefits!**

**ONLY CONDITIONS NOT COVERED:**

This new Gold Star Plan covers every conceivable kind of sickness and accident, except, of course, hospitalization caused by the use of alcoholic beverages or narcotics; mental or nervous disorders; any act of war; pregnancy; pre-existing conditions (except the first 3 years only); or where care is in a Government hospital. Everything else is covered.

**HERE IS GOOD NEWS for folks who don't drink!**

Now—at special, low abstainer rates—you can get \$100.00-a-week tax-free cash, from the very first day you enter the hospital for as long as you are confined there, even for life, if necessary.

This wonderful, low-cost Income Protection is made available only to folks who don't drink, by the famous Gold Star Plan—the well-known "Special Protection for Special People" company Valley Forge, Pa. They are the shrewdest and the world's largest providers of health insurance made exclusively by and for good people like you who say "No thank you" to alcoholic beverages.

**You Get So Much—For So Little!**

If it seems incredible to you that we can provide you with \$100.00-a-week income for life, if necessary, if necessary, let us assure you that it is possible because we provide insurance coverage ONLY FOR NON-DRINKERS and nobody else.

We know that if YOU do not drink, you are a "risk" than a person who does drink. In fact, you are a complete non-risk, without obligation, and you share in it. You decide—in the benefits this special protection is now providing for so many others who, like yourself, use their common sense to stay away from alcohol—for life, if necessary, if necessary, because they refuse to let drinking imperil their health.

**What Would Happen To Your Family?**

The chances are one in seven that even you will spend some time in the hospital this year. A fall on the stairs, in the bathtub, or on the sidewalk—a sudden illness or operation—could lay you out for weeks, months, perhaps even years.

Right now, you probably have some hospital coverage. You may think you're "safe" from all the financial burdens of sickness and accident. But most hospital coverage usually takes care of only part of your expenses:

Can you afford the soaring costs of doctor, surgical, and nurse bills? Can you afford missing your weekly paycheck during the time you're laid up in the hospital? Even though you probably have some protection now—will it be enough? Sickness, accidents, hospitalization, cost many people their lives, their cars, even their homes. Don't take chances with your financial security. Now for only pennies a day, YOU can enjoy the added protection, the peace of mind, the freedom from worry that this new Gold Star "Preferred Risk" \$100-A-Week Extra Income Protection Plan NLE-9965 offers.

**The Added Protection You NEED!**

All benefits of this Gold Star \$100.00-A-Week Income Protection Plan are paid directly to you, in tax-free cash, in addition to whatever you may receive from your other insurance. Spend the money as you see fit—for hospital or doctors' bills, mortgage payments, groceries—or any necessary but costly extras not fully covered by usual hospital policies.

Everything costs more these days (don't we tell you?) and hospital care is certainly no exception! While 7 out of 8 Americans have some hospital insurance, they find out it does not cover all the bills that pile up when sickness or accident strikes. That's why Gold Star developed low-cost Extra Income Protection that helps you pay other hospital costs or anything else you need or want!

You get your \$100.00 per week (\$14.28 per day)—TAX FREE—from your very first day in the hospital. Even if you are confined there, even for life, if necessary. Additional Gold Star benefits pay \$25,000.00 cash for complete accidental loss of a hand, or one foot, or sight of one eye; \$5,000.00

cash for complete accidental loss of both hands, or both feet, or sight of both eyes.

**For Older Folks—Greater Protection Than You Ever Would Have Thought Possible!**

Right now, would advancing age prevent you from getting hospital insurance, or income protection with another company? Or if you could get a policy elsewhere, would you have to pay a big premium for it? Or perhaps you no longer have a regular income, and are living on Social Security. What would happen to you then if you had to suddenly go to a hospital?

Your "life save" could be this wonderful Gold Star Income Protection Plan—because Gold Star welcomes folks of all ages into its Plan. You can even be 100 years old and still enjoy all the benefits! And you can consider this your "hazard" for protecting your health and "stretching out your life" by not drinking!

Some folks over age 65 might ask "Why do I need this protection, now that Medicare will take care of any hospital expenses I might incur?" The fact is, however the Medicare might be, it does have certain limitations. First, it covers only part of your needs, and for only a limited period of time. And second, Medicare does not even begin until July—and you know that a heart attack or stroke could happen between now and then!

So you can see why it's so helpful, so important, so necessary to carry protection in addition to Medicare—and what better, or more ideal, protection can you find than this Gold Star Plan? CALIFORNIA—Mrs. Lucy E. Walters, Trona: "Your prompt disposition of my two claims within a year has more than justified my expectations. They were taken care of in the exact manner that you advertised. Thank you."

PENNSYLVANIA—Andrew C. Teachman, Milamora: "I was both surprised and delighted at the promptness with which my claim was paid. No quibbling; no nonsense; just a check for the full amount a week after I turned the claim paper over to my doctor for his report. It is the simplest claim paper ever made out for anything."

FLORIDA—Mrs. Eleanor H. Reed, Miami: "In my opinion, the Gold Star Insurance Plan is the greatest thing that has ever happened. It definitely rewards those who are total abstainers. The charges on the policies are so reasonable and the amount of coverage is so generous."

**Read Why Leading Americans Praise Gold Star Plans**

Scores of leading citizens have publicly praised the Gold Star idea of insurance for abstainers at reduced rates. Among them:

HON. KARL E. MUNDT, U.S. Senator, South Dakota: "Since health statistics indicate that alcoholic beverages have proved detrimental to the body, I believe the Gold Star Plan makes good sense and enables non-drinkers to receive income at rates which recognize that those who abstain from alcohol provide an improved actuarial risk."

UPTON SINGLAR, Pulitzer Prize author: "I think you Gold Star idea of giving people the insurance discounts they earn by not shortening their lives with alcohol is a brilliant one, and I am glad to be counted in on it."

CHARLES ATLAS, holder of the title "The World's Most Perfectly Developed Man": "My lifelong career has been devoted to helping others enjoy the rewards of right living and wholesome regard for the body God gives them. I know what a deep satisfaction it must be to Gold Star to reward others, through substantial savings, for their abstinence from alcohol—a basic rule for every individual who sincerely respects and wishes to protect his own God-given health."

GENERAL W. K. HARRISON, U.S. Army (Ret.): "In my long experience in the Army I have always observed the deadly effect of the use of liquor. I see no reason why non-drinkers should help pay the high costs of insurance due to liquor. After examination of the Gold Star Plan and its operation, I am convinced that it is effectively achieving its objective."

1. How much will this policy pay me when I go to the hospital?  
\$100.00 per week.
2. When will my hospitalization benefits start?  
The day you enter the hospital.
3. Will I be paid if I am in the hospital for less than a full week?  
Yes. This new plan (NLE-9965) pays whether you are in the hospital for only a day, or a week, a month, a year or longer!
4. Does this policy have any "waiting periods" before I can use it?  
No. It will go into force at noon of the day we accept your first premium.
5. How long will I continue to receive hospitalization benefits?  
There is no limit. Gold Star will continue to pay as long as you are confined to the hospital—even for life if necessary.
6. How may I use these benefit payments?  
You may use them in any way you wish—for hospital and doctor bills, rent, food, household expenses, or anything else. This is entirely up to you.
7. Does this policy pay any other benefits?  
Yes. It pays \$25,000.00 for complete accidental loss of a hand, a foot or sight of an eye; \$5,000.00 for complete accidental loss of both hands, both feet or sight of both eyes.
8. Are these benefits payable in addition to the \$100.00 a week?  
Yes, they definitely are.
9. Can I collect from Gold Star even if I carry other insurance?  
Of course. This plan will pay you in addition to whatever you may receive from any other policies.
10. Why do I need this Gold Star Plan in addition to my other hospital and health insurance?  
While hospital costs have tripled in recent years, very few people have tripled their insurance. The chances are one in seven that you will require hospital care this year—and you will need money to take care of all your other expenses, as well as your hospital bills. Your Gold Star checks are rushed to you by air mail to use as you see fit.
11. May I apply if I am over 67?  
Yes, you may. Folks any age are welcome to apply—there is no age limit!
12. Will my protection be cancelled if I have too many claims?  
No. Your guarantee never to cancel your protection because you have too many claims or because of advanced age. We also guarantee never to refuse to renew your policy unless the premium is not paid before the end of the grace period, or unless renewal is declined on all policies of the type in your entire state. (Of course, if deception is used in making application, the policy may be ineffective.)
13. Will my benefits be reduced because of advanced age?  
No. Regardless of how old you become or how many claims you have, your benefits remain the same.
14. Will my rates be raised as I grow older or if I have too many claims?  
No matter how many claims you have, or regardless of how long you keep your policy, your rate will remain the same as it was for your age when you applied. Gold Star guarantees never to adjust this rate unless the rates are adjusted on all policies of this type in your entire state!
15. What is not covered by this policy?  
The only conditions not covered are those caused by the use of alcoholic beverages or narcotics; mental or nervous disorders; pregnancy; pre-existing conditions (during the first 3 years only); acts of war; or where care is in a Government hospital. Everything else is covered!

17. Can other members of my family take advantage of this special offer?  
Yes, as long as they can meet the few requirements listed above.
